MEMORANDUM FOR: Director of Training

SUBJECT : Intelligence School Weekly Report #21  
23 May through 29 May 1958

1. On 27 May Father Heyden completed his ten-week course on Satellite Theory. The course was well attended, including the last session, and the students showed an active and continuing interest in the subject. At the end of his lecture Father Heyden was given a rising vote of thanks by the entire student body. [ ] announced that the first two volumes of Father Heyden's lectures had been printed by the Air Force and would be distributed to the students; eight more volumes will follow and these will also be distributed. [ ] also made available to OSI the tapes for the entire series of lectures. OSI will handle the transcribing of the tapes. Altogether the course, though highly technical at times, was a huge success.

2. [ ] is working full time in the Operations School. [ ] and C/IS have laid plans for Instructional Techniques and related activities in either of two cases: if [ ] returns to IS, or if he is transferred. Nothing will be done until September, however, when his status is expected to be clearer.

[ ]  
Chief, Intelligence School
